

## Creating a Bookmark in Adobe PDF

1). Display the page that you would like the new bookmark to navigate to after being clicked.

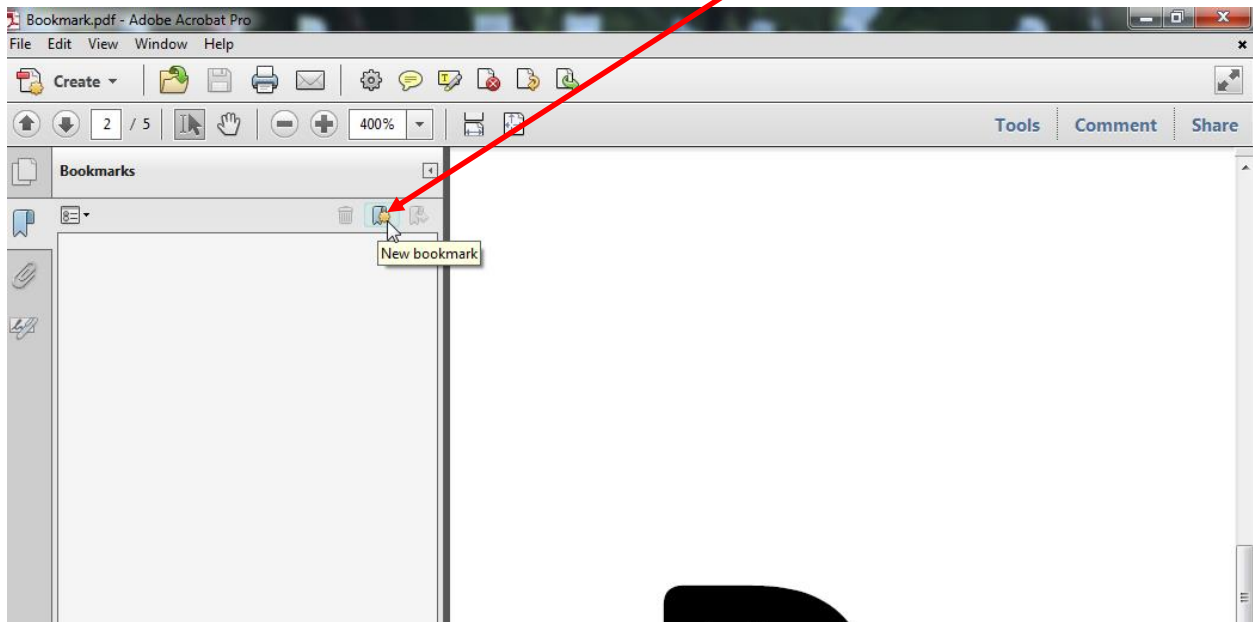

2). Set the desired magnification for the content that the new bookmark will navigate to on the page specified in Step 1.

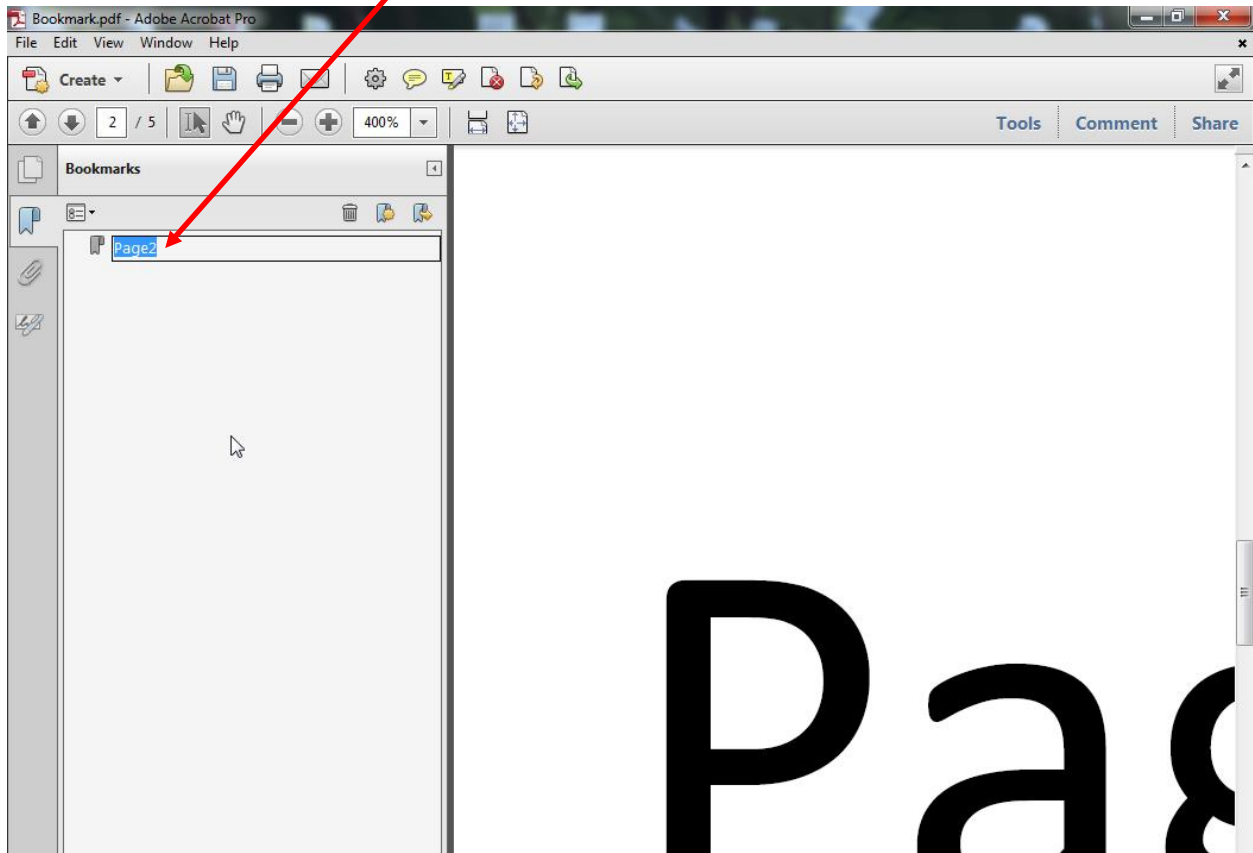

3). Open the bookmarks panel.

4). Click on the “New bookmark” button.

5). Enter a name for the bookmark.

6). Congratulations!! Your bookmark is now complete. Repeat the steps to create other bookmarks as needed.
